Sam Barrett	Clinician-Community Based	LSWAIC (WA)	SC61331462	Masters in Social Work	Sam Barrett (they/them) is a clinical social worker who has engaged in grassroots organizing and community based agencies with children, youth, and families. Sam's experience has been largely with those who have historically marginalized identities. Their approach emphasizes on cultivating self empowerment, identifying strengths, and an empathetic, warm, inclusive, and non judgmental space. Sam strives to support and champion the individuals they work with as they identify and explore their identities, voice, sense of self, and hopes for the future.

					<p>Hello! I am a Clinical Mental Health Counselor Associate and Provisional Art Therapist. My goal is to create a warm and trusting environment where we will work collaboratively to investigate patterns of behavior, thoughts, and emotions that may be interfering with specific areas of your life. During the therapy process, we will work to identify issues that are important to you. Together, we will set goals for your work, and will periodically review these goals and assess your progress.</p> <p>My theoretical orientation is Person-Centered, a counseling approach that is based on the understanding that every person has their own vibrant and unique lived-experience and holds the resources within themselves to access healing, restoration, and personal growth. Additionally, I utilize art therapy methods. While the choice to participate in art making is always at your discretion, the process of creating art yields self-expression which in turn can assist in: resolving conflicts or challenges, improving interpersonal skills, increasing behavior management abilities, decreasing stress, increasing self-esteem, heightening self-awareness, and achieving greater personal insight.</p>
Sarah Borger	Therapist - School-Based	LMHC (WA)	MC61300882	Masters in Counseling
