

## HEAL

Focuses on trauma-informed, healing-centered strategies, helping educators understand trauma's impact on behavior and learning. Equips participants to create supportive environments that promote resilience and recovery.

## ENGAGE

Emphasizes relationship-building, effective communication, and equity-focused collaboration. Includes implicit bias and family engagement training to foster an inclusive environment where all voices are valued.

## ALIGN

Explores systems and practices shaping school climate. Focuses on school-wide plans like restorative practices and leading for equity to create a more inclusive educational environment.

## LEAD

Develops leadership skills through coaching and consultation. Covers facilitation, emotional intelligence, and team coaching from a healing-centered perspective to drive change and inspire others.
